

OPTOCAM TSR W

Through sight recording system

KEY FEATURES:

- / Compatibility with various scopes
- / Zero effect on scope's field of view and image
- / Unified system – camera, optics, DVR and battery
- / HD camera & DVR
- / Long operational time
- / Light weight plug & play unit

The Optocam TSR system, a combat proven equipment, was developed in collaboration with the Israeli defense force and is used by it and other special forces since.

TSR systems, are add-on products, recording directly through the sight eyepiece, and simultaneously recording and projecting the view on a screen.

The TSR enables the commander or instructor to analyze during and after trainees activity.

The TSR's recorded events enable a clear objective post mission debriefing.
