

# OPTOCAM<sup>AHD</sup> SniperScope

## KEY FEATURES:

- / Compatibility with various scopes
- / Zero effect on scope's field of view and image
- / Unified system – camera, optics, DVR and battery
- / HD camera & DVR
- / Long operational time
- / Light weight plug & play unit

The OPTOCAM<sup>AHD</sup> SniperScope system, a combat proven equipment, was developed in collaboration with the Israeli defense force and is used by it and other special forces since.

OPTOCAM<sup>AHD</sup> SniperScope systems are an add-on product, recording directly through the sight eyepiece, and simultaneously recording and projecting the view on a screen.

The OPTOCAM<sup>AHD</sup> SniperScope enables the commander or instructor to analyze during and after trainees activity.

The OPTOCAM<sup>AHD</sup> SniperScope's recorded events enable a clear objective post mission debriefing.
